All total returns assume the reinvestment of all dividend and capital gain distributions at net asset value when paid. All total returns without sales charge do not reflect the deduction of the current maximum sales charge or the applicable contingent deferred sales charge or any applicable redemption fee. Had those charges been deducted the results would have been lower than shown.

All total returns with sales charges assume the deduction of the current maximum sales charge or payment of the applicable contingent deferred sales charge but do not include any applicable redemption fee. During prior years, certain classes of shares may have been offered at a higher maximum sales charge. Therefore, the average annual returns may have been somewhat lower than noted.

Definitions for investment terms are available in the Glossary.

Merrill Lynch, Pierce, Fenner & Smith Incorporated offers its products, accounts and services through different service models (for example, self-directed, full-service). Based on the service model, the same or similar products, accounts and services may vary in their price or fees charged to a client.

Investing involves risk. Investment funds are subject to market volatility and the risks of their underlying securities. In addition, each fund has its own specific risk profile and investment strategies detailed in its prospectus or other offering material, which must be considered carefully before making an investment decision.

This Profile is for informational purposes only and does not constitute a recommendation to the fund.

Before investing consider carefully the investment objectives, risks, and charges and expenses of the fund, including management fees, other expenses and special risks. This and other information may be found in each fund's prospectus or summary prospectus, if available. Always read the prospectus or summary prospectus carefully before you invest or send money. Prospectuses can be obtained by contacting us.

In addition to receiving dealer concessions and asset-based sales charges and/or services fees in connection with clients' purchasing and holding mutual fund shares, Merrill Lynch and its affiliates provide other services for which they may receive additional compensation from funds or their affiliates. This compensation is generally disclosed in a fund's prospectus, and if available, the summary prospectus, statement of additional information or website. For specific mutual fund family compensation information, please contact us.

Not all classes of shares may be available to every investor. Certain limitations may apply and, therefore, you may not be eligible to purchase certain of the classes of shares identified herein. Furthermore, those classes of shares that you would be eligible to purchase may be subject to ongoing account maintenance and/or distribution fees, which will affect the performance of such shares.

Portfolio holdings are subject to change periodically and may not be representative of current holdings. Current and future holdings are subject to risk, including, but not limited to, market and credit risk. This information is subject to change at any time. Top Holdings data provided by Lipper.

Sales Charge schedule does not reflect any special purchase privileges that may be available to certain investors such as waivers and rights of accumulation. The value of mutual fund shares held away from Merrill Lynch may be used to calculate sales charge discounts. Investors must provide sufficient information of ownership of shares held away from Merrill Lynch to receive the proper discount.

Discounts and waivers on front-end sales loads may be available to you depending on the terms set forth in the fund's prospectus and/or statement of additional information. Additionally, less expensive share classes may be available to you depending on the eligibility of terms set forth in the fund's prospectus and statement of additional information. The conditions under which these discounts, waivers or beneficial share classes are available vary among fund families. These discounts, waivers or beneficial share classes may be available only if you purchase directly from the mutual fund company or its distributor, or through other financial intermediaries, and not through Merrill Lynch. The availability of discounts, waivers of front-end loads or beneficial share classes may also vary depending on the Merrill Lynch service model you select. Consult your Merrill Lynch Financial Advisor, Financial Solutions Advisor or Investment Center representative and check the fund's prospectus, statement of additional information, and website to obtain fund-specific information on front-end sales load discounts, waivers and eligibility for beneficial share classes.

Front-end load schedule does not reflect any applicable contingent deferred sales charge for certain purchases made at NAV. Consult the prospectus for more information. Sales Charge schedule also does not include information about Merrill Lynch programs in which certain classes of participating funds are sold at NAV. These programs charge an on-going fee for assets held in the program.

Morningstar Rating™ - For each fund with at least a three-year history, Morningstar calculates a Morningstar Rating based on a Morningstar Risk-Adjusted Return measure as of the date indicated that accounts for variation in a fund's monthly performance including the effects of sales charges, loads (except for load-waived A shares), and redemption fees, placing more emphasis on downward variations and rewarding consistent performance. The top 10% of funds in each category receive 5 stars, the next 22.5% receive 4 stars, the next 35% receive 3 stars, the next 22.5% receive 2 stars and the bottom 10% receive 1 star. (Each share class is counted as a fraction of one fund within this scale and rated separately, which may cause slight variations in the distribution percentages.) The Overall Morningstar Rating for a fund is derived from a weighted average of the performance figures associated with its three-, five and ten-year (if applicable) Morningstar Rating metrics. Past performance is no guarantee of future results. Morningstar Rating™ is for individual share classes only. Other classes may have different performance characteristics.

Morningstar Style Box™ - The Morningstar Style Box reveals a fund's investment strategy. For equity funds and fixed-income funds respectively, the vertical axis shows the market capitalization of the stocks owned or the average credit quality of the bonds owned. The horizontal axis shows investment style (value, blend, or growth) or interest rate sensitivity as measured by a bond's duration (short, intermediate or long). Duration is a measure of interest-rate sensitivity—the longer a fund's duration, the more sensitive the fund is to shifts in interest rates.

Lipper ratings for Total Return reflect funds' historical total return performance relative to peers.

Lipper ratings are subject to change every month and are based on an equal-weighted average of percentile ranks for the Total Return, Consistent Return, Preservation, Tax Efficiency, and Expense metrics over three, five, ten year and overall periods (if applicable). The highest 20% of funds in each peer group are named Lipper Leader or a score of 5, the next 20% receive a score of 4, the middle 20% are scored 3, the next 20% are scored 2, and the lowest 20% are scored 1. Lipper ratings are not intended to predict future results, and Lipper does not guarantee the accuracy of this information. More information is available at www.lipperleaders.com. When comparing the performance of a mutual fund to that of an index it is important to note that the securities in which the Fund invests may be substantially different than those represented by the index. Furthermore, an investment in the Fund represents an investment in a managed investment company in which certain charges and expenses, including management fees, are applicable. These charges and expenses are not applicable to indices. Lastly, please note that indices are not available for direct investment.

Expense Ratio (Gross) - Gross Expense Ratio is the total annual operating expense (before waivers or reimbursements) from the fund's most recent prospectus. You should also review the fund's detailed annual fund operating expenses which are provided in the fund's prospectus.

Orders for Vanguard mutual funds that are entered after 2:30 p.m. ET will be processed the next business day.

For more information about investing in mutual funds at Merrill Lynch and Merrill Edge, please read the Guide to Mutual Fund Investing.

Mutual Funds are priced as of the previous business day's market close when the market is open. Mutual fund positions are priced as of the official market close, 4:00 p.m. EST.
